

# Solutions for Oracle

## Turbocharge Your Database Performance

**Unlock the power of your Oracle applications and data so your business can move faster with 100% data availability, no matter what's ahead. We can help you simplify and optimize your Oracle environments to gain cost savings as well as create opportunities for innovation.**

1. Hitachi has the best sustainability ratings for energy efficiency according to **ENERGY STAR® ratings**. Our optimized designs can lead to reductions in power use by up to 30% compared to legacy systems.<sup>4</sup>
2. **Experience faster database performance for improved mission critical application outcomes** with the **#1 ranked** data platform per Gartner.
3. Hitachi Vantara has **helped more than 2,000 companies** over the past 10 years consolidate and **reduce Oracle infrastructure costs by up to 50% or more**.<sup>4</sup>
4. One customer, **a large Turkish bank, has seen a major increase in storage performance with the all-flash arrays, with reduced latency and shorter application response times**.<sup>2</sup>
5. **Hitachi has helped customers save upward of 50% by consolidating** all operations across fewer nodes using Hitachi Vantara's data reduction technology.<sup>4</sup>
6. **According to one customer, Hitachi's VSP was running their applications at least 10 times faster than the SLA required, and 70% to 90% faster** than their previous-generation storage.
7. **Customers have experienced up to a 57% improvement** in Oracle application performance **and a 44% reduction in latency using the VSP 5000 series**, the most powerful data platform in the world.<sup>1</sup>
8. **Experience 100% Oracle data availability and reliability so your business doesn't stop** AND meets IT compliance and governance requirements.
9. In terms of throughput, Hitachi Vantara was able to achieve nearly **87 MBps** with its Oracle solution. According to Hitachi Vantara, this result **surpassed an equivalent competitive solution by 129%**.<sup>3</sup>
10. With over 16.5 million customers served across Turkey, customer **Yapi Kredi** has successfully built a modern, robust storage infrastructure to underpin its critical Oracle systems. The new environment provides the resilience and flexibility needed to support innovative banking services and handle growing transaction volumes seamlessly.<sup>2</sup>
