

DATASHEET

Containers as a Service from Hitachi Vantara

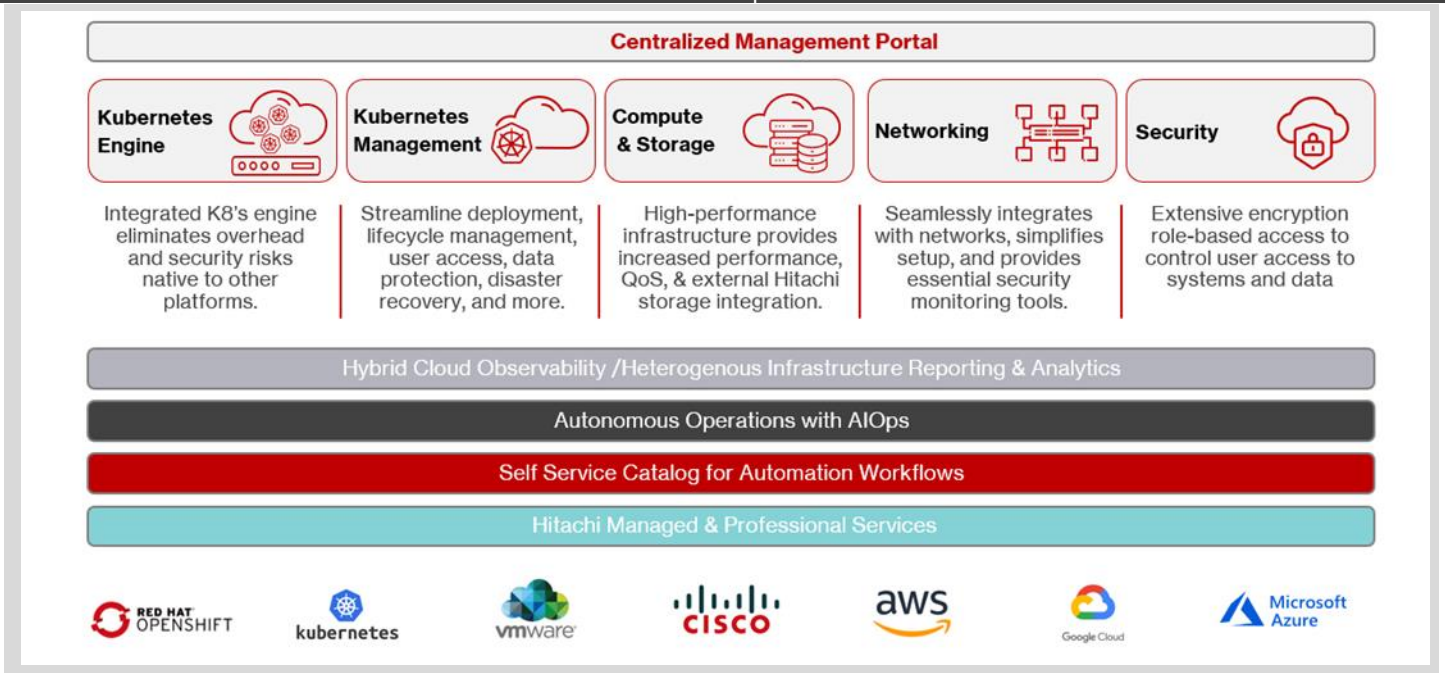

Complete container and analytics solution using private, public, or hybrid cloud.

Scalable, cost-effective, and secure environment.

Consumption-based service.

Fully integrated with Hitachi Infrastructure Orchestration as a Service intelligence automation platform

Empowers businesses to innovate faster.

Boost Business Agility and Performance

As IT and storage infrastructure demands grow, so do the challenges facing IT departments to manage infrastructure, maintain service levels, and deploy new projects on behalf of the business. New operating models are required to ensure IT delivers services that are dynamic, cost efficient, responsive, and compliant. As organizations grow, the ability to consume capacity in a more flexible manner becomes increasingly critical.

Containers as a Service from Hitachi Vantara represents a pivotal shift in how organizations develop, deploy, and manage applications. CaaS from HV provides a scalable, cost-effective, and secure environment for containerized applications.

Scalability & Performance

Automatically adjusts to the resources required to run a service.

Application Portability

Works with virtually any type of underlying infrastructure.

Significant Reduction TCO

Guaranteed reduction in total cost of ownership Infrastructure, servers, software licenses, etc.

Fully Automated

Provide intelligent automated, self-healing operating model across Datacenters and Hybrid Cloud infrastructure.

Containers as a Service from Hitachi Vantara

Containers as a Service includes storage, compute, networking, and software that provides a complete container and analytics solution using private, public, or hybrid cloud. This service delivers to customers a Kubernetes platform, that will improve overall application portability with a typical total cost of ownership (TCO) reduction in the realm of 30-50%.

Containers as a Service is a consumption-based service that will provide our customers and the market with solution options in their transformation journey.

Containers as a Service from Hitachi Vantara provides customers with:

- ✘ Increased Stability.
- ✘ Committed SLAs.
- ✘ Seamless integration into existing platforms.
- ✘ Minimizes risk with a dedicated security and orchestration platform.
