About this catalog

This catalog lists the qualification tests and certification exams of the Hitachi Vantara Certified Professional Program.

- It covers all audiences - customers, partners and employees.
- It is organized by tracks, showing the training that support the tests and exams.

LEGEND	
Title	Curriculum title
Course code - Course name Duration and delivery type Training Units	Delivery type: ILT = Instructor-Led Training vILT = virtual Instructor-Led Training On-Demand = e-learning (web-based training, videos)
Qualification test or Certification exam name Kryterion, proctored or unproctored	Proctored = Closed-book test or exam, scheduling required Unproctored = Open-book test, no scheduling needed
Qualification credential name	Qualification level credential (HQT-xxxx test) - see note (*)
Certification credential name	Certification level credential (HCE-xxxx exam)
Professional path name	Learning Path credential

(*) Note: technical HQT-xxxx qualification tests

Depending on the location and course delivery format, technical qualification tests (HQT-xxxx) may be offered and administered by the instructor at the conclusion of a course. Course attendance is required for taking a qualification test in the classroom.

Alternatively, such tests are also available through [Webassessor](#), either online (online proctored) or at Kryterion testing centers (onsite proctored).

Audiences: Customers, partners, employees
Tests: HQT-6230, HQT-6420, HQT-6430

File Storage Management and Operations		Content Storage Management and Operations	
TCI2910 – Managing the VSP One File Platform 5-day ILT or vILT 5 Training units		TCI2743 – Managing Hitachi Content Platform 3-day ILT or vILT 3 Training units	TXI6795 – Managing Hitachi Content Platform for Cloud Scale 3-day ILT or vILT 3 Training units
HQT-6230 Hitachi VSP One File Administration test Kryterion, proctored		HQT-6420 Hitachi Content Platform Administration test Kryterion, proctored	HQT-6430 Hitachi Content Platform for Cloud Scale Administration test Kryterion, proctored
Hitachi Vantara Qualified Professional VSP One File Administration		Hitachi Vantara Qualified Professional Content Platform Administration	Hitachi Vantara Qualified Professional Content Platform for Cloud Scale Administration

Professional Learning Path

Storage administration

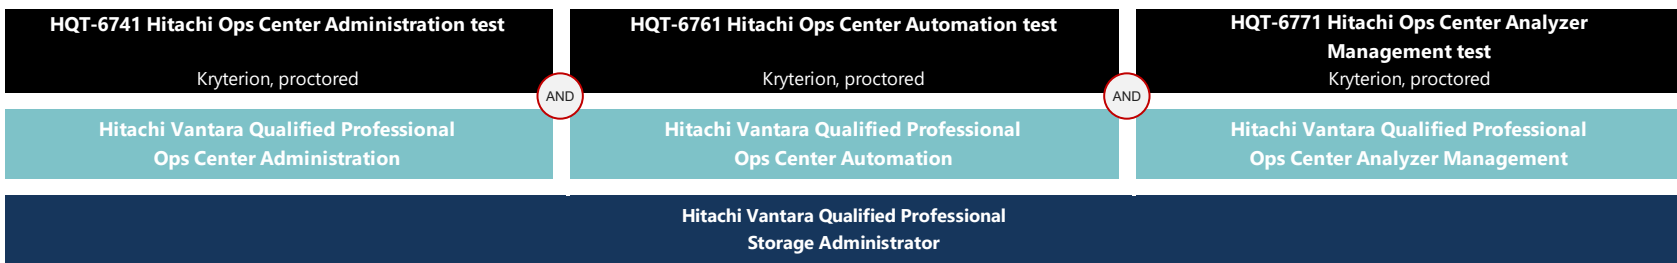

Audiences: Customers, partners, employees
Tests: HQT-6741, HQT-6761, HQT-6771

Completing the three tests signifies the mastery of storage administration using Hitachi Ops Center and leads to the Learning Path credential:

Hitachi Vantara Qualified Professional - Storage Administrator

Professional Learning Path - Storage Administration

Professional Learning Path

Object storage administration

Audiences: Customers, partners, employees
Test: HQT-6420

Completing the test and courses signifies the mastery of object storage administration for Hitachi Content Platform and leads to the Learning Path credential:

Hitachi Vantara Qualified Professional - Object Storage Administrator

Professional Learning Path - Object Storage Administration

HQT-6420 Hitachi Content Platform Administration test

Kryterion, proctored

TSI6765 – Managing Hitachi Content Monitor

1-day ILT or vILT | 1 Training unit

TXI6819 – Managing HCP Gateway for Windows

2-day ILT or vILT | 2 Training units

**Hitachi Vantara Qualified Professional
Content Platform Administration**

**Hitachi Vantara Qualified Professional
Object Storage Administrator**

Professional Learning Path

Data protection

Audiences: Customers, partners, employees
Tests: HQT-6711, HQT-6712, HQT-6713, HQT-6714

Completing the four tests signifies the mastery of data protection administration using Hitachi Ops Center Protector with Hitachi replication products and leads to the Learning Path credential:

Hitachi Vantara Qualified Professional - Data Protection Administrator

Professional Learning Path - Data Protection Administration

Credential Levels

Qualification

This level of testing uses medium-stakes exams typically in two contexts:

- Validation of broad and general expertise on subjects that evolve rapidly and for which a flexible assessment mechanism with short development cycles is needed.
- Validation of basic and fundamentals technical knowledge acquired academically, usually through course attendance, and for which entry-level testing is appropriate.

Typical Hitachi Vantara qualification tests include about 35 multiple-choice questions. Open-book tests are delivered online and unproctored. Closed-book tests are always proctored and can be delivered as end-of-course tests, or in a stand-alone format either online or at Kryterion testing centers.

ASSOCIATE QUALIFICATION

A recognition of expertise acquired in an academic format for a given subject area. This entry-level credential validates introductory level technical knowledge.

PROFESSIONAL QUALIFICATION

A validation of general and foundational knowledge for a given subject area and aligned to a specific job role. Qualified professionals perform general level work in selected subject areas.

Credential Levels

Certification

Certification relates to high-stakes exams that are designed to effectively and accurately validate that candidates have the skills, knowledge and abilities to perform specifically identified tasks as they relate to their job in real-life situations.

To pass certification exams, candidates are expected to use knowledge acquired through multiple means and experiences, including various formal and informal training and learning methods. It is therefore normal and expected that certification exams will cover topics that are beyond the sole scope of any given course or set of courses that have been identified to support the exams.

Hitachi Vantara certification exams typically include about 60 multiple-choice questions. They are closed-book proctored exams delivered either online or at Kryterion test centers.

SPECIALIST CERTIFICATION

A validation that the candidate has the required technical knowledge, skills and abilities to perform advanced tasks in given subject areas. Certified specialists have multilayer technical skills, handle complex solutions and are usually specialized in one or more areas.

EXPERT CERTIFICATION

A recognition of very high levels of technical knowledge, skills and abilities in one or several areas. Certified experts combine their solid experience in the IT industry with strong expertise and business acumen to deliver high-value services in complex environments.

Systems – Webassessor:

Test and candidate management + test delivery

Kryterion has over 1000 testing centers in 120 countries and also provides online proctoring functionality so medium and high-stakes proctored certification exams can be taken anywhere an internet connection and a suitable environment are available. Online unproctored testing is available for open book tests.

ONLINE PROCTORED EXAM REQUIREMENTS

- External webcam (USB-attached)
- Respondus Secure Browser software installed (provided by Kryterion)

Webassessor is available under SSO [here](#).

A test taker user guide is available [here](#).

Systems – CM Connect:

Candidate and credential management

The CM Connect system from Alpine Solutions, Inc. is used to track and manage certification/qualification credentials. With Alpine's CM Connect system candidates can:

- Review and update your demographic data
- Check your certification status
- View your certification history
- Download your logos and certificates
- Create and manage transcripts

CM Connect is also the central database for certification reporting.

The system is available [here](#).

A user guide is available [here](#).

Systems – Credly:

Digital badges

We partnered with Credly for our free digital badging service. On the Credly system candidates can:

- Share badges on digital platforms such as social media, email signature, embedded in your résumé or in web sites
- Access Labor Market Insights to connect your skills and abilities with job opportunities
- Digitally verify competencies

The system is available [here](#).

General information about Hitachi Vantara digital badges is available [here](#).
