

HITACHI DELIVERS MANAGED STORAGE SOLUTION WITH LARGE ALL-FLASH DEPLOYMENT

For many years, the BMW Group and Hitachi Vantara have been working together successfully in the area of data storage. For a future-proof storage environment, Hitachi Vantara wanted to provide a highly flexible storage solution that enabled the team to respond dynamically to changing storage requirements.

[Click here for the full story.](#)

CHALLENGE

Provide **fast, flexible, on-demand** managed storage services to meet changing business requirements

Keep up with **increasing data volumes**

Stay within a **confined** data center footprint with **limited** cooling capacity

SOLUTION

Managed services provided by Hitachi Vantara Global Services

All-flash storage

Storage on demand

SAN deployment by Brocade (a Broadcom Inc. Company)

OUTCOMES

Nondisruptive storage migration is **30% faster**

Added capacity while **reducing** data center footprint

Significant savings on energy and cooling

Flexible to meet changes in demand

Reduced administration workload

Increased **efficiency** and **performance** for the storage-on-demand service
