

*Service Brief*

# Hitachi Vantara Professional Services

Maximize the Value of Your VSP One SDS Cloud Investment

*According to a leading  
industry analyst firm,*

Hitachi Vantara's strength continues to lie in its professional services, including consulting and design services. These services allow clients to strategically plan and build sustainable business processes and adopt mechanisms to ensure optimized environments for on-premises and cloud clients.

VSP One Software-Defined Storage (SDS) Cloud is a solution that constructs and configures virtual storage environments using multiple virtual machines within the public cloud.

For VSP One SDS Cloud customers, Hitachi Vantara Global Services professionals can provide expert guidance and best practices in configuration. Their unmatched knowledge ensures that your VSP One SDS Cloud environment performs optimally and seamlessly integrates into your infrastructure and operations.

Our team helps prevent misconfigurations that lead to bottlenecks and data issues, ultimately impeding your organization's progress. They bridge skill and resource gaps by streamlining the deployment and delivering production readiness so your team can concentrate on optimizing storage services and operations.

## Maximize the Value of Your VSP One SDS Cloud Investment

### Hitachi is Your Partner for Success

Hitachi Vantara Global Services, with certified technology partners, offers tailored solutions that prioritize professional expertise, tools, and methodologies to quickly deploy VSP One SDS Cloud based on your business needs. Key service benefits include:

- **Expertise and Insight:** Partner with professionals with extensive knowledge and VSP One SDS Cloud experience. Our consultants, solution architects, and hands-on seasoned experts offer invaluable insights and assist in navigating the intricacies of storage deployment, optimization, and expansions. They also have direct links to engineering and support teams.
- **Custom Solutions:** Our team will assess your applications and workloads, analyze your requirements, and create a custom, integrated storage solution. Whether you're deploying storage on AWS or a hybrid infrastructure, the outcomes are designed to align with your needs.
- **Critical Knowledge Transfer:** Entrust us with the technical oversight necessary for fast and efficient deployment and to seamlessly facilitate the transfer of critical expertise to your staff. From day one, we empower your administrators to confidently manage and operate your storage solution so your organization can immediately take advantage of the numerous unique features and options of VSP One SDS Cloud.

### Services Built for VSP One SDS Cloud

Hitachi Vantara has a portfolio of storage and infrastructure services for your VSP One SDS Cloud environment, tailored for an innovative software-defined storage environment:

- **VSP One Consulting Services:** Mobilizing and augmenting your IT staff ensures expert project execution and comprehensive strategic planning. If you're not inclined, or don't have time to delve into custom professional services, consider our consulting services for time and material engagements. Just let us know how many support hours you would like. Once the solution is in place, you can use hours as needed during the next 12 months for implementation, migration aid and other support. Or allocate some hours for a brief storage assessment to fine-tune performance and avert bottlenecks to ensure operations run seamlessly at their peak.
- **VSP One Migration Services:** Accelerate your move to VSP One SDS Cloud with our turnkey, non-disruptive migrations, expertly executed and seamlessly delivered for operational continuity. Uncover, strategize, and implement the perfect migration strategy. Benefit from our proven methodologies, comprehensive, hassle-free approach, and intelligent workflows to streamline your transition to VSP One SDS Cloud from any source with minimal disruption and uninterrupted operations.
- **VSP One SDS AWS Hybrid Cloud implementation Service:** Unlock the full potential of your Amazon Elastic Compute Cloud (EC2) with VSP One Software Defined Block Storage. Our team of experts will tailor optimal configurations and guarantee seamless integration with your existing EC2 environment. Perfect for teams aiming to enhance performance, scalability, and reliability, our solution ensures a streamlined deployment experience, so you can focus on innovation while we manage the critical setup and optimization.

Let Hitachi Vantara Global Services augment your existing resources so you can quickly realize the most optimal VSP One SDS Cloud environment. With our team of experts onboard, your staff can focus on more important business priorities. Contact us today to start collaborating with Hitachi Vantara Services.
