About this Guide

This guide provides information related to the integration and interoperability of 3rd-party independent software vendor (ISV) applications and hardware that are compatible with Hitachi Content Platform, Hitachi Content Platform Anywhere and Hitachi Data Ingestor.

For information related to qualification and validation, please contact isvalliances@hds.com

Hitachi Alliance Partner Program

Would you like to have interoperability with a specific application? This program provides the framework for engagement to enable interoperability in joint solutions with Hitachi Data Systems products. As a partner in this program you receive global benefits for joint integration, relationships, sales opportunities and partnerships.
