

# Hitachi Vantara Certified Professional

## DATASHEET

### Enhance and Validate Your Skills

The Hitachi Vantara Certified Professional program is an industry-leading, role-based, certification program. It provides knowledge and skills validation through a variety of exams in the areas of storage solutions architecture, implementation

and administration, using Hitachi Vantara hardware, software, solutions, services and technology.

### Benefits

With the Hitachi Vantara Certified Professional program, IT professionals can:

- Validate their skills, knowledge and technical competencies.

- Establish their credibility and increase their value in the IT marketplace.
- Gain peer recognition and distinguish themselves from the competition.

### Credential Levels

The Hitachi Vantara Certified Professional program features a two-tier assessment

Certification Qualification

Track Name	Credential Level	Domains					
		Infrastructure	Converged		Data Protection	Content	Pentaho Business Analytics
			UCP With Director	UCP for SAP HANA			
Sales	Professional	Sales Foundations (HQT-1000)					
Presales	Professional	Presales Foundations (HQT-2000)					
Administration	Professional	Storage Administration (HQT-6740)					
Architect	Expert	Performance (HCE-3700)			Replication (HCE-3710)	Pentaho Solutions Architect (HCE-3900)	
					Mainframe Replication (HCE-3720)		
Implementation and integration	Specialist	HNAS (HCE-3210)	UCP Solutions (HCE-3610)	UCP for SAP HANA Solutions (HQT-3620 + HCE-3610)			
	Expert	Virtualization (HCE-5730)			Replication OS (HCE-5710)		
	Specialist	Compute Platform (HCE-5510)				Pentaho Business Analytics (HCE-5910)	
Installation and support	Specialist	HNAS (HCE-5210)	UCP w/Director (HCE-5610)	UCP for SAP HANA (HCE-5620)		Content Platform (HCE-5420)	
						Pentaho Data Integration (HCE-5920)	
	Professional	Enterprise (HCE-4130)	UCP Installation (HQT-4610 + Storage and Compute exams)				
		VSP G1500 and VSP F1500 (HCE-4140)					
		Modular (HQT-4110)					
		VSP G200-G800 (HQT-4120)					
		Compute (HQT-4510)					
HNAS (HQT-4210)					Content Platform (HQT-4220)		
<b>Entry-Level Testing</b>							
Basics and Fundamentals	Associate	Storage Concepts (HQT-0050)					

UCP = Hitachi Unified Compute Platform, Director = Hitachi Unified Compute Platform Director, UCP for SAP HANA = Hitachi Unified Compute Platform for the SAP HANA Platform, Compute Platform = Hitachi Compute Platform, VSP G200-G800 = Hitachi Virtual Storage Platform, including VSP G200, VSP G400, VSP G600 and VSP G800, HNAS = Hitachi NAS Platform

structure that provides an evolution path as professionals increase their expertise and advance their careers.

**Qualification-level** testing leverages low-stakes exams typically used for validation of broad and general expertise on subjects that evolve rapidly and for validation of basic and fundamental technical knowledge acquired academically.

In most cases, passing a qualification test leads to a qualification credential. Passing a test can also be a requirement for a certification credential. Hitachi Vantara currently offers two qualification levels: Associate and Professional.

**Certification-level** testing effectively and accurately validates that candidates have the skills, knowledge and abilities to perform specifically identified tasks as they relate to real-life job situations.

In order to pass certification exams, candidates are expected to use knowledge acquired through multiple means and real-life experiences, including various formal and informal training and learning methods.

In most cases, passing a certification exam leads to a certification credential. Alternatively, multiple exams may be required to obtain a certification credential. Two certification levels are currently available: Specialist and Expert.

## Program Tracks

- Sales Track
- Presales Track
- Administration Track
- Architect Track
- Implementation and Integration Track
- Installation and Support Track
- Basics and Fundamentals Track
