Accelerating Business Growth with Data-Driven Decisions
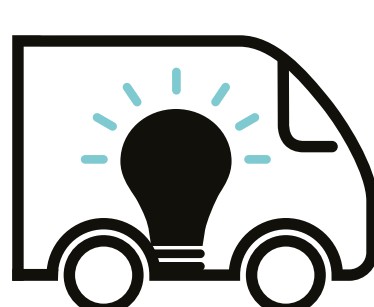

Leading insurance provider enables smarter, faster business outcomes through data insights.
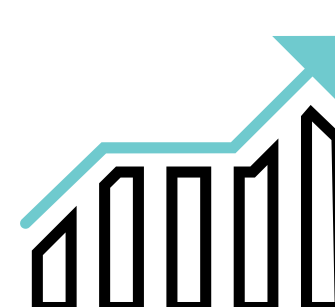

DISCOVER HOW THEY DID IT

The Challenge

Improve operational decision-making and agility

**Deliver** daily business insight to hundreds of stakeholders

Modernize data warehouse with a more scalable approach

> " Our team can much more easily communicate with our 200 business stakeholders thanks to intuitive visualizations of complex data flows in Pentaho Data Integration. Better communication means faster implementation of new functionalities. The whole business has become more agile.

– Steffen Riedel
Team Lead Data Warehouse, WERTGARANTIE Group

The Solution

Pentaho Data Integration from Lumada: access, blend & analyze any data with a scalable, end-to-end platform.

The Outcome

Intelligent data operations for analytics has enabled the standardization of 600 data pipelines across 750 data tables:
 Reduces loading time from 7 to 2.5 hours

 Improves quality management with continuous monitoring

 Facilitates faster, data-driven decisions

 Streamlines internal communications for 200 stakeholders

 Delivers high performance with a modern data platform
