

Five Reasons to Rely on Hitachi Vantara Midrange Storage Solutions

World-Class Storage Solutions that are Right for You

If you have the same key storage challenges as major enterprises, why not choose the same solution?

Hitachi Vantara is trusted by top financial institutions and Fortune 500s—but our solutions easily scale for the needs (and budgets) of growing businesses.

Hitachi Vantara customers include:

85%

of the Fortune 100 companies

87%

of the Fortune 100 Financial companies

Sound familiar?

- You need 100% availability
- Loss of any data is a problem
- Applications MUST remain available
- Data governance is essential

Here are five key reasons why you, too, should rely on storage solutions from Hitachi Vantara.

1 Accelerate Project Delivery

Go to market faster with modern data storage that increases operational efficiency, accelerates adoption of new business processes and improves customer experiences.

Reduce cost, complexity and risk with direct connection to servers

Migrate data without disruption

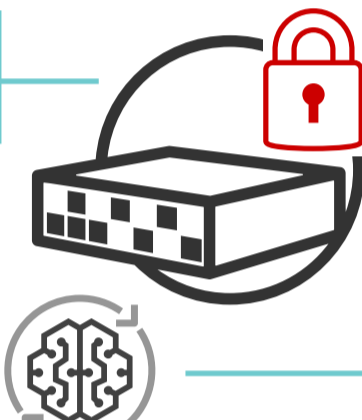

Simplify scaling by adding ports, not additional SAN switches

2 Confidently Protect Your Data

2

Keep your data properly safeguarded with software and services that ensure continuous availability and adherence to compliance requirements.

100% data availability guarantee

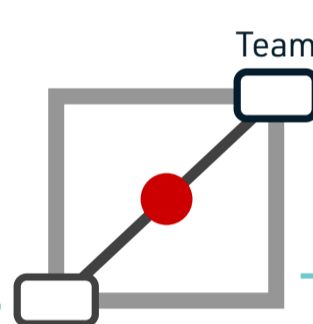

Data at rest encryption, Active/Active reliability

Continuous, proactive monitoring of VSP systems by Hitachi Remote Ops

3 Optimize Your Resources

Drive long-term business agility with scalable data storage that helps keep management costs under control while supporting a diverse range of data types and workloads.

Manage your data center within an approved budget

Predictable pricing with flexible utilization

Reduce operational costs to free up budget and resources for innovation projects

"Set-and-Forget" Reliability

4

Spend less time and money on maintenance, upgrades and skills training, knowing that intelligent operations and reliable reporting will keep you and your data center up to speed.

Real-time insights and visibility into how resources are being used

Intelligent data center operations improve performance

Predict and prevent software and hardware faults

5 Build a Foundation for the Future

Get enterprise-like features and functionality based on the needs and resources of today. With linear scale capabilities, you will get the full value of your investment.

Evolve to extended infrastructure with a gateway to object storage and more

Benefit from the extensive knowledge of the Hitachi Vantara Community

Basis of your block and file storage for simple scalability

Trusted. Simple. Affordable.

Don't settle for less! We've spent over 20 years earning the trust of leading enterprises.

100%
data availability.
Guaranteed.

24/7/365
non-stop business
workload support

50,000
customers

>16
exabytes
of data
