

Now Is the Time to Modernize Your SAP Environment

Companies need to get the most out of their infrastructure investments.

US **\$3 Trillion**

Estimated enterprise IT infrastructure-and-software spend from 2015 through 2020.¹

Modernization delivers more value from your applications and infrastructure.

Legacy Applications

- | Siloed data
- | Complex architecture
- | Lack of efficiency
- | High total cost of ownership (TCO)

Modern Platforms and Technology

- | Instant, real-time insights for more informed decisions
- | Reinvented processes for higher performance
- | Better user experience for increased productivity
- | Simplified architecture for lower TCO

What would you do with ...

Faster Insights

100x

faster reports for detailed analytics²

Increased Productivity

Businesses gain up to

US **\$1.38M**

in user-productivity benefits from reduced downtime.³

Lower TCO and Higher Consolidation

US **\$11.1 Million**

savings in operational costs.⁴

Infosys reduced **total cost of delivery** by

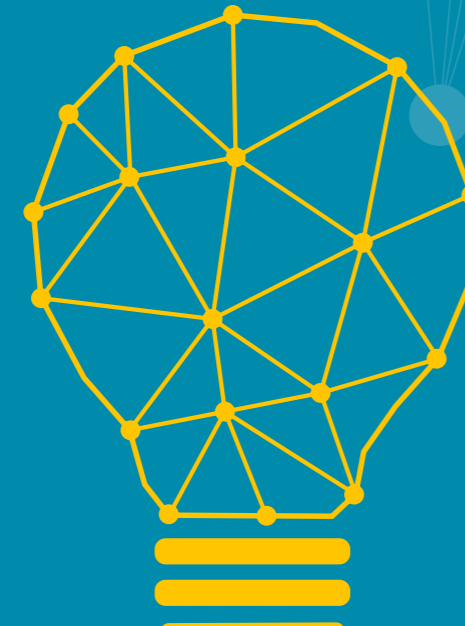

85%⁵

Choose Hitachi solutions for SAP environments

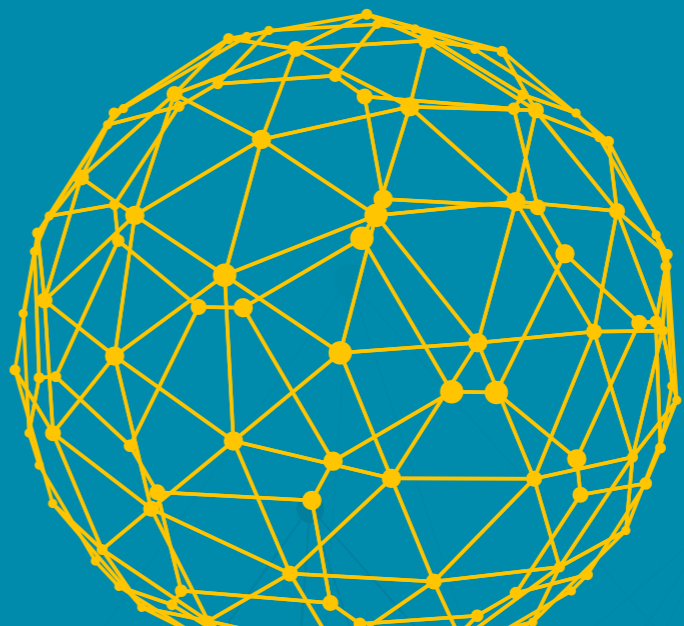

We help you achieve similar results.

Let us help you harness your SAP investments so you can reach your application and business goals faster.
