

Increase Agility While You Eliminate Risks and Costs of Your Storage Management

EXPLOSIVE DATA GROWTH

The cloud storage market is expected to grow to \$106B by 2024 with a CAGR of

23.76%

Market Data Forecast Aug 2019

Use storage as you need it and when you need it

PACE OF CHANGE

"In today's world, it is no longer the large fish that will eat the small fish, but rather the fast fish that will eat the slow fish."

*Klaus Schwab
Executive Chairman of the
World Economic Forum*

Allows you to access technology innovation

COST CONSIDERATIONS

20% of the IT operating Budget is wasted money

Gartner

Release cash. invest in new business

Managed data center services will grow at a 17.67% CAGR

By 2020, every human on the planet will be creating 1.7 megabytes of information... each second! In only a year, the accumulated world data will grow to 44 zettabytes (that's 44 trillion gigabytes)!

A New Way To Make Storage Work for You

Elastic consumption for "as you need it" availability.

Guaranteed SLAs to meet your business requirements.

Deployment within 60 days for fast time to deployment.

Pay as you go with small entry point and no upfront investment.

Build next-generation platforms for real-time analytics and IoT scale.

Predictable pricing with no hidden costs and standard consumption unit pricing from a rate card.

Storage as a Service From Hitachi Vantara

Storage as a service (STaaS) from Hitachi Vantara a public-cloud experience as an alternative to the conventional lease or purchase of storage, including the operational burden of storage and the associated operational burden of the storage asset for traditional IT applications.

With deployment in as little as 60 days, STaaS delivers fully managed end-to-end storage management with host provisioning, full end-to-end change request management, plus incident resolution from host to storage.

Storage as a Service

- Delivers end-to-end storage management with host provisioning.
- Fully managed by Hitachi with end-to-end change and request management.
- Incident resolution from host to storage.
- Advanced storage analytics and reporting.

Storage as a Service Essentials

- The storage is owned and partially managed by Hitachi.
- Includes: SLAs, monitoring, reporting and architectural governance.
- All responsibility for storage provisioning, change, request and configuration management stays within your organization.

With storage as a service, Hitachi Vantara provides advanced storage management, analytics and reporting. You can save money, shift risks to Hitachi and increase your agility and ability to react to new business opportunities.

You can feel confident about partnering with Hitachi Vantara. Have successfully delivered similar solutions to global financial institutions and enterprises across all industries. Each organization has realized the benefits of a more flexible approach along with significant cost savings and reduced risks.

When You Succeed, We Succeed

At Hitachi Vantara, we are with you every step of the way. Our global experts are ready to help you to confidently navigate a new, business-defined approach to data protection to ensure your success.

With increased control, improved reporting, analytics, and reduced operational and management costs, our storage-as-a-service offerings provide the tailored solution to meet your needs today and tomorrow.
