

Your PostgreSQL Environment With Hitachi VSP One and Integrated Systems

The Challenge

Managing growing PostgreSQL databases across hybrid and multicloud environments is complex. Scaling often leads to performance drops, increased management effort and higher costs.

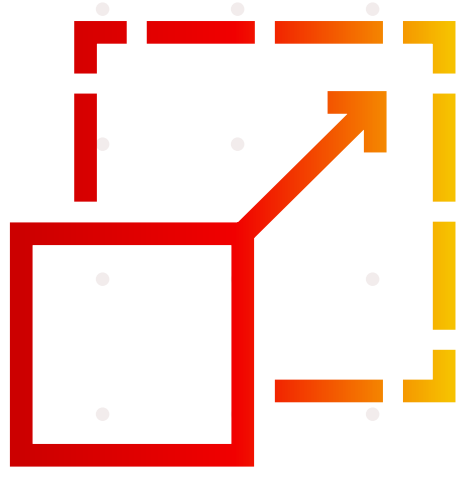

The Solution

Hitachi offers a scalable, secure and easy-to-manage infrastructure tailored for PostgreSQL workloads, supporting private, hybrid and multicloud deployments.

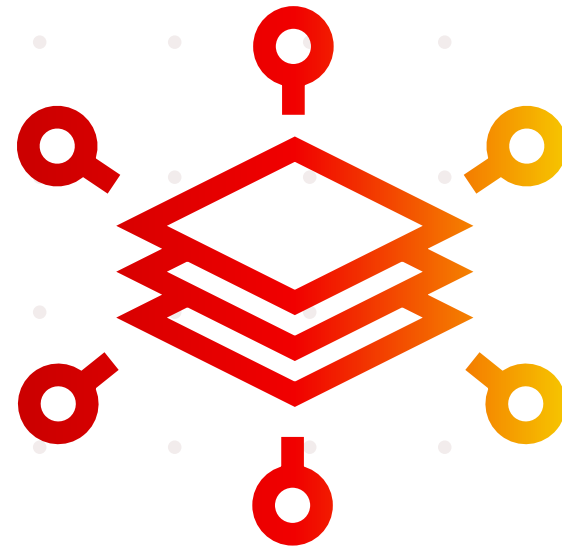

Key Capabilities & Benefits

Seamless Scalability

Support continuous growth with flexible expansion allowing you to extend into the cloud at low costs.

Unified Management

Simplify operations with centralized, easy-to-use management and automation, reducing manual effort and operational costs.

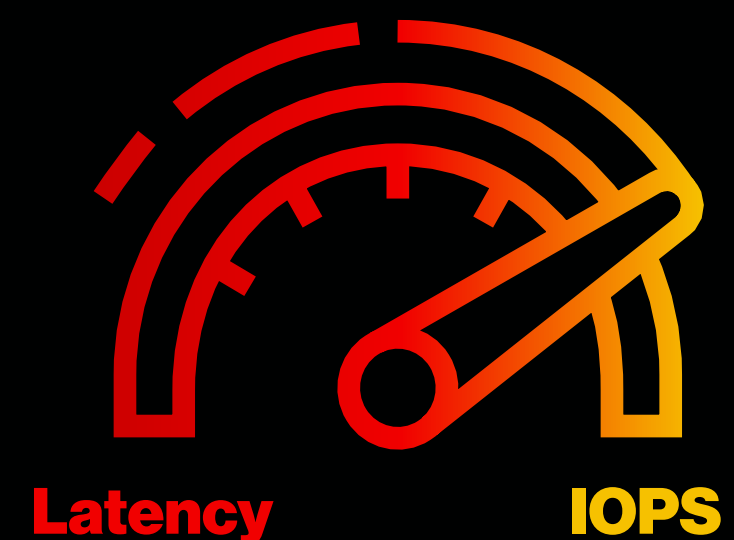

Enterprise-Grade Security

Protect your critical data with advanced security features, compliance support and ransomware recovery guarantees.

Performance That Supports Business Growth

Deliver consistent, lightning-fast storage performance that supports high transaction throughput and rapid query response times — ensuring your business stays competitive.

Why Choose Hitachi

Trust in proven guarantees:

- 100% data availability guarantee
- Rapid data recovery in seconds
- Guaranteed performance and security
- Sustainable, cost-effective operations
