

YOUR ONRAMP TO

# Hybrid Cloud Infrastructure

Looking to avoid the multi-data center issues of **multi cloud?**

**66%**

of enterprises haven't achieved the expected benefits of cloud migration

\*according to Accenture

**Don't know how to get to true Hybrid Cloud?**

You're not alone.

## Why?

**Lots of reasons** but here are a few of the top reasons

**65%** security & compliance risk

**53%** business complexity

**43%** legacy infrastructure or app sprawl

**42%** lack of cloud skills

In its reporting on the cloud migration opportunity, McKinsey found,

"Cost overruns at a global level add up to well more than **\$100 billion in wasted spend over the course of migration in three years.**

Left unchecked, those costs of moving workloads to the cloud could **wipe out more than \$500 billion in shareholder value** over the same period."

Have you tried multi-cloud? Managing multiple data centers?

## But want true Hybrid Cloud results?

**Exponentially more complex BOM** to manage at scale—multiples with options

**Lack of interoperability between clouds** SMEs required for cloud tools

**Lack of workload mobility**

**Multicloud=Multi data center=** managing multiple datacenters

**Where is my data** and is it sufficiently protected

**Runaway infrastructure costs**

What if you could get to true Hybrid Cloud IT Operations with the infrastructure and tools you already have? **Now you can.**

## Introducing Hitachi Cloud Connect

With the best of Hitachi enterprise-class storage and data management solutions, you can extend your datacenter infrastructure and operations

**to the Equinix location of your choice.**

**What does this mean to you?**

**01**

**Extension of your datacenter**

to additional locations—while staying within your firewalls.

**02**

**Turn your operational data into actionable insights**

without impacting your IT resources with our advanced analytics and automation software both on-premise and in near cloud.

**03**

**Obtain instant connection**

to the public cloud of your choice—for additional resources when and where you need them.

**04**

**Utilize your existing industry leading AI Ops**

to monitor, manage, operate and protect your extended infrastructure from your centralized datacenter.

### When You Succeed, We Succeed

At Hitachi Vantara, we are with you every step of the way. Together with our global partner ecosystem we are ready to help you confidently navigate a new era of cloud-defined storage services. Enjoy increased control, improved reporting, powerful analytics and reduced operational costs. Delivering all the performance and agility you need to keep growing, keep winning in the cloud era.

**Find out how Hitachi Cloud Connect can become your successful on-ramp to Hybrid Cloud.**

We Are Hitachi Vantara

We guide our customers from what's now to what's next by solving their digital challenges. Working alongside each customer, we apply our unmatched industrial and digital capabilities to their data and applications to benefit both business and society.
