

EXAM DESCRIPTION

Hitachi Vantara Qualified Professional – Hitachi Content Platform Installation HQT-4420 Exam

| | |
|-----------------------------|---|
| Description: | This test is designed for Hitachi Vantara employees and partners who install Hitachi Content Platform systems. The test will validate that the successful candidate has knowledge and skills in installing, configuring and supporting Hitachi Content Platform systems at customer sites. This includes strong knowledge of the system hardware and related management software, and a thorough understanding of installation and configuration procedures as well as associated administrative activities. The test also covers the tools, techniques and best practices related to supporting and servicing Hitachi Content Platform. This test covers Hitachi Content Platform models HCP G10 with attached storage, HCP G10 with local storage, HCP VM, HCP S10 and HCP S30. |
| Audience: | Hitachi Vantara employee and partner installation professionals. Hitachi Content Platform installation professionals should have strong knowledge and skills in installing and supporting the hardware systems deployed as part of Hitachi Content Platform solution implementations. These professionals have knowledge of file-and-content concepts and interoperability. They perform pre-installation checks, install, configure and test the systems so they can be handed over in an operational state to customers. They also provide post-installation services, including support, maintenance, updates and upgrades and have knowledge of problem-determination and incident-resolution procedures, tools and techniques. |
