Hitachi Data Systems - UCP with Unified Compute Platform Director Installation HAT-415 Exam	
<b>Description:</b>	This test is designed for Hitachi Data Systems employees and partners who install Hitachi Unified Compute Platform solutions. The test will validate that the successful candidate has knowledge and skills in installing, configuring and supporting Hitachi UCP systems at customer sites. This includes strong knowledge of the systems hardware and components, and thorough understanding of installation and configuration procedures as well as associated administrative activities. The test also covers the tools, techniques and best practices related to supporting and servicing the Hitachi UCP systems. This test covers Hitachi UCP and Hitachi UCP with Unified Compute Platform Director solutions.
<b>Audience:</b>	Hitachi Data Systems employee and partner installation professionals.  Hitachi UCP installation professionals should have strong knowledge and skills in installing and supporting systems deployed as part of Hitachi UCP and Hitachi UCP with Unified Compute Platform Director implementations. They perform pre-installation checks, install, configure and test the systems so they can be handed over in an operational state to customers. They also provide post-installation services including support, maintenance, updates and upgrades and have knowledge of problem-determination and incident-resolution procedures, tools and techniques.
<b>Supporting material:</b>	TCI2529 Installing and Maintaining Hitachi Unified Compute Platform for Multi- and Single-Rack Systems (5d ILT)
<b>Exam type:</b>	Accreditation
<b>Format:</b>	Proctored, closed-book exam
<b>Credential:</b>	Passing this exam is one of the requirements for obtaining the Hitachi Data Systems Certified Specialist - UCP with Unified Compute Platform Director solutions installation credential.
<b>Delivery:</b>	The exam is available through the Prometric <a href="#">Internet-based testing (IBT)</a> tool and at <a href="#">Prometric test centers</a> .
<b>Questions:</b>	35
<b>Passing score:</b>	65%
<b>Duration:</b>	60 minutes
<b>Cost:</b>	US\$100 (or equivalent in local currency)

Test objectives	
<b>Section 1</b>	<b>System Architecture</b>
1.1	Describe Hitachi UCP with Unified Compute Platform Director model options.
1.2	Identify documentation provided by HDS for installing, configuring and servicing UCP with Unified Compute Platform Director solutions.
1.3	Describe UCP with Unified Compute Platform Director MultiRack components architecture.
1.4	Describe the management infrastructure for UCP with Unified Compute Platform Director.
1.5	Describe UCP with Unified Compute Platform Director SingleRack systems.
<b>Section 2</b>	<b>System Installation</b>
2.1	Describe UCP with Unified Compute Platform Director MultiRack site reassembly cabling and installation.
2.2	Describe the system validation process for UCP with Unified Compute Platform Director.

<b>Section 3</b>	<b>Unified Compute Platform Director</b>
3.1	Describe console access and navigation for UCP with Unified Compute Platform Director.
<b>Section 4</b>	<b>System Maintenance</b>
4.1	Describe how to use the UCP with Unified Compute Platform Director console for installation and maintenance purposes.
4.2	Describe UCP with Unified Compute Platform Director system logs.
4.3	Describe UCP with Unified Compute Platform Director maintenance procedures.
4.4	Describe UCP with Unified Compute Platform Director firmware and software upgrades.
