About this Guide

This guide provides information related to the integration and interoperability of 3rd-party independent software vendor (ISV) applications and hardware that are compatible with Hitachi Content Platform, Hitachi Content Platform Anywhere and Hitachi Data Ingestor.

For information related to qualification and validation, please contact partnerprograms@hitachivantara.com

Hitachi Vantara Partner Program

Would you like to have interoperability with a specific application? This program provides the framework for engagement to enable interoperability in joint solutions with Hitachi Vantara technologies.

As a Create partner, you will be able to design, develop and build applications, software, hardware and integrated solutions based on Hitachi Vantara technologies and solutions. This model includes, but is not limited to, ISVs, technical alliance partners, and developers.
