

HITACHI VANTARA SOFTWARE LICENSE TERMS

If You have a Direct Purchase Agreement or other form of supply agreement in place with Hitachi Vantara LLC or its Affiliate (“Hitachi”) or a Hitachi Partner for the purchase of Hitachi Products and/or Hitachi Services (“Agreement”), these Hitachi Vantara License Terms, along with all of the terms attached to or incorporated herein by reference (together, the “License Terms”), must be read together with the Agreement.

1. LICENSE GRANT

- (a) Except as expressly provided otherwise in these License Terms or the Agreement, Hitachi grants to You a personal, non-transferable, non-exclusive license to Use the Licensed Items for Your internal business operations, solely in a manner that is consistent with Your Entitlement and the applicable Documentation. You obtain no title or ownership in any Licensed Items under the Agreement or these License Terms and You must not sub-license any Licensed Item without Hitachi’s prior written consent. Your rights in the Licensed Items comprise the following:
- (i) You are entitled to Use the Software that You purchase from Hitachi or a Hitachi Partner:
 - (A) in either machine-readable object code form or machine-compressed form (and the related Documentation may be used only in printed or electronic form in support of the applicable Software);
 - (B) in accordance with the Published Specifications applicable to that Software;
 - (C) subject to the restrictions specified in these License Terms, Your Entitlement and the applicable Documentation; and
 - (D) in compliance with all applicable laws.
 - (ii) If You are provided with Maintenance Material, You are entitled to Use that Maintenance Material solely in receipt of the Maintenance and Support Services with respect to Products that You have purchased from Hitachi or a Hitachi Partner.
 - (iii) If You are provided with Work Product under a Statement of Work as part of Your receipt of Professional Services from Hitachi, You are entitled to Use, reproduce, copy and display the Work Product solely for Your internal business purposes and subject to any further restrictions and/or additional terms set out in the Statement of Work.
 - (iv) If You are provided with "development/testing" or Software evaluation licenses, You may only Use the evaluation Software in Your internal development and testing environments, but not in a Production Environment. Your Use is subject to the additional terms set out in Section 2 below.
 - (v) If Hitachi or a Hitachi Partner have loaned Products to You, You will use the Software provided to You solely as part of those Products for Your internal evaluation purposes, and subject to the additional terms set out in Section 2 below.
 - (vi) If You are authorized under your Entitlement to provide Hosted Services to End Users, You will use the Products that You have purchased in compliance with the terms of the Hosted Services Addendum to these Software License Terms. References to these License Terms will be deemed to include the Hosted Services Addendum, as applicable.
- (b) You agree and acknowledge that Hitachi may use license keys, Tokens and other means to limit Your access to or Use of Programs in accordance with the terms of the Agreement and these License Terms. If You have been issued with license keys for a perpetual Version of a Program, Your Use of the Program will be locked to that Version. You must not disable, work-around or otherwise interfere with the operation of any license key, Token or other mechanisms or technical limitations in the Programs. You further acknowledge that Hitachi may choose not to renew any license key if Hitachi reasonably believes that You are in breach of these License Terms or any IP Rights in the Software or any other Licensed Items.
- (c) Software Use is strictly limited by the Entitlement. You may only Use Operating Software on the Equipment for which it was purchased in order to operate the Equipment in accordance with its Published Specifications. For capacity-based Software licenses, You may only Use the Software up to the specified capacity purchased on the relevant Equipment, network, device, node or CPU. For Core-based licenses, the total number of virtual and physical Cores running the Software may not exceed the permitted number of Cores identified in the Entitlement. For term-based or subscription licenses, You may only Use the Software only for the duration for which You are licensed to Use the Program.
- (d) For prepaid Tokens, You may only use the Software until the earlier of: (i) the Token expiration date that Hitachi or Hitachi’s Partner (as applicable) has expressly provided to You in writing; and (ii) the date that the balance of the Tokens reaches zero. If You exceed the applicable limitations, You must pay to Hitachi or the Hitachi Partner (as applicable) all additional license fees before You may be granted further Use of the Software.

2. SOFTWARE EVALUATION LICENSES

- (a) Where You are granted the right to Use the Software for Your evaluation purposes under a Product loan arrangement, then without limiting the applicable loan terms, You must Use the Software solely to evaluate its performance and functionality on a standalone basis or on the relevant Equipment with or for which the Software has been supplied, in Your internal business environment at the location, and only for the Designated Use and loan period that You have agreed to under the applicable loan arrangement or otherwise as part of Your Entitlement.
- (b) Your right to Use the Software for that purpose will end upon the earlier of: (i) the expiry of the applicable loan period; (ii) the termination of the loan arrangement; or (iii) the expiry of the applicable license key. Any output of the Software that is created or inferred by the Software provided under a development/testing or Software evaluation license may not be duplicated to the other systems and will be considered the Confidential Information of Hitachi. You may not Use such output after the expiration of the Software evaluation period unless You obtain a license to the Software.
- (c) Notwithstanding any other provision in the Agreement and to the extent permitted by applicable law: (i) You accept the loaned Software and any Services performed on the loaned Software on an “as-is” basis, without warranty of any kind, including any warranty relating to performance or function; and (ii) except for death and personal injury caused directly by Hitachi’s act or omission, Hitachi will not be liable for any actual or anticipated, direct, indirect, special, incidental, consequential or other damages arising from the loaned Software and any Services performed on the loaned Software, howsoever caused, whether under contract, in equity, common law, statute or otherwise,

including breach of contract, breach of warranty or in tort (including negligence), anticipatory breach or repudiation, and even if Hitachi has previously been advised of the possibility of such damages. This Section 2 prevails to the extent of any inconsistency with other terms of the Agreement, in respect of loaned Software and Services provided under such loans.

3. THIRD PARTY SOFTWARE & HOSTING SERVICES

- (a) Third Party Software may be embedded in the Hitachi proprietary Software that is branded as “Hitachi” Software and sub-licensed directly to You under these License Terms. Other Third-Party Software is provided to You subject to the terms of the applicable Third Party EULAs, which are available from Hitachi at Your request. Such Third Party EULAs may be in the form of shrink-wrap or click-through license agreements.
- (b) You will have no recourse against Hitachi or its Affiliates with respect to any Third-Party Software, unless Hitachi is the stated licensor and then, only to the extent expressly provided for in these License Terms. You are responsible to do whatever is necessary or required by the Third-Party Licensor for the licenses and related terms to take effect (e.g. online registration).
- (c) The inclusion of Third-Party Software or Open Source Software in the Products and Your acceptance of any Third-Party EULAs or Open Source Software Licenses (or other similar agreements presented by Third-Party Licensors) will not adversely affect Your Use of the Products, as authorized under these License Terms.
- (d) You will have no recourse against Hitachi or its Affiliates with respect to the actions or omissions of a third-party hosting service or hosting provider and its agents.

4. OPEN SOURCE SOFTWARE

- (a) The Software may include Open Source Software. A complete list of the licenses for the Open Source Software provided with the Hitachi proprietary Software is made available with the Software or Documentation or on the Open Source License Website. You are responsible to read the terms of, and adhere to all licenses for Open Source Software.
- (b) By accepting these License Terms, You are also deemed to have accepted the terms and conditions of the licenses applicable to any Third-Party Software (including any Open Source Software) included with the Software. The Open Source License Website does not include Third-Party Related OSS. You must refer to the applicable Third-Party EULA or the file directory located in the Software for those terms.
- (c) If the Software includes GPL Software and the applicable source code was not included in the Software, then You may obtain a copy of the applicable source code for the GPL Software by either: (i) requesting Hitachi to mail the open source code to You; or (ii) downloading the open source code by following the links on the website referenced in the Open Source License Website.

5. USE RESTRICTIONS

Except to the extent that any of the following restrictions are prohibited by applicable law or the terms of any Open Source Software license or Hitachi expressly agrees to waive a restriction in writing, You must not, and must not allow any other person to:

- (a) disclose the results of testing or benchmarking the Software or Products to any third party without Hitachi’s prior written consent;
- (b) translate, decompile, disassemble, reverse compile, reverse engineer, reduce in human readable form or otherwise attempt to discover, access or reconstruct the source code or underlying ideas, algorithms, file formats, programming or interoperability interfaces of the Software, or any files contained in, or generated using the Software by any means whatsoever;
- (c) modify, unbundle, enhance, supplement or create derivative works using the Software;
- (d) sub-license, rent, lease, transfer, loan, distribute, resell or grant any rights in and to the Software to a third party;
- (e) copy or reproduce the Software other than as expressly allowed in these License Terms or as authorized by Hitachi in writing;
- (f) remove or otherwise tamper with any proprietary notices, labels or marks contained on or in the Software;
- (g) use or permit the Software or other Licensed Item to be used to perform services for third parties, whether on a service bureau or time-sharing basis, cloud services, hosted services or otherwise, other than as expressly allowed in these License Terms or as authorized by Hitachi in writing;
- (h) use the Software or other Licensed Item or allow their use for any of the following purposes: (i) developing, enhancing or marketing any product that is in any way competitive with the Software or any Product; or (ii) testing the Software or Product to derive data for any purpose which is competitive with the Software or any Product; (iii) using the Software via any communications network or by means of remote access that is not authorized by Hitachi in writing;
- (j) use the Software that is licensed for a specific device, whether physical or virtual, on another device unless expressly authorized by Hitachi in writing;
- (k) use the Software in breach or excess of the terms of Your Entitlement; or
- (l) use the Software in any manner other than as expressly provided in these License Terms or as authorized by Hitachi in writing.

6. AUTHORIZED COPIES

Except as Hitachi agrees otherwise in writing, all Programs and related Documentation will be delivered to You via download or other electronic access. In all other cases, Hitachi will provide You with one (1) copy of the media and Documentation of the Software. For Software licensed to You under an enterprise license, Hitachi grants to You the right to make a reasonable number of copies of the Software solely for Your own internal use, within the scope of the enterprise license. You may also make one (1) copy of back-up or archival copies of Software solely for Your own internal business use; however, You must ensure that such copy bears Hitachi’s proprietary notices, labels or marks. You must reproduce on all copies made, all proprietary and copyright notices contained on or in the Software.

7. SOFTWARE TRANSFERS

Except to the extent otherwise provided in any applicable Open Source Software license, You must not transfer the Software to any other person or entity without Hitachi's prior written consent. You may, however, transfer the Operating Software to a third party ("*transferee*") solely with the related Equipment, but You must ensure that the transferee agrees to the terms of these License Terms and all additional relevant license terms. The Operating Software is provided to the transferee on an "as is" basis, with no transfer or extension of any existing warranty or support arrangements. When the transfer is complete, You must remove and destroy all copies of the Operating Software in Your possession or under Your control. You must also permanently remove all Software from any media upon which it is stored prior to disposing of the media.

8. LOCATION OF SOFTWARE

If the Equipment upon which You are authorized to Use the Software becomes temporarily inoperable, You may load and Use the Software on another of Your computer systems located at the same premises, until the original Equipment becomes operable. Otherwise, You must always get Hitachi's prior written consent before changing the Equipment on which the Software is to be Used, or its location.

9. VERIFICATION RIGHTS

Hitachi or its independent auditor may, upon reasonable notice to You, examine and audit Your records and systems to ensure compliance with Your Entitlement and these License Terms. The audit will be performed during normal business hours in a manner which does not unduly interfere with Your business operations. If the audit shows that You are using more copies of the Software than permitted under Your Entitlement, Hitachi may charge You additional usage fees.

10. TERMINATION OF LICENSES

Your license in the Software is effective until its termination or expiration (whether of a license key or otherwise). Your license in the Software will terminate if You are in breach of these License Terms, any license for Third Party Software, the Agreement or if you fail to pay any portion of the applicable license fee and you fail to cure the breach in accordance with the terms of the Agreement.

11. USAGE AND PERFORMANCE DATA

Hitachi may collect and transfer Derived Data to its Affiliates, Personnel or partners at any time and without notifying You. You grant to Hitachi, its Affiliates and their respective Personnel a worldwide, royalty-free, non-exclusive right and license to use, copy, modify and sub-license the Derived Data for the purposes of product and/or service delivery, improvement and development.

12. SOFTWARE SUPPORT

For Hitachi's terms and conditions related to the support of the Software, refer to the WMS Terms.

13. DEFINITIONS

Affiliate: in relation to a Party, means a business entity controlled by, controlling or under common control of such Party, where "control" means owning or controlling the majority (more than 50%) of the voting rights, either directly or indirectly, or, if no voting stock exists, possessing, directly or indirectly, the power to direct or cause the direction of the management and policies of the concerned entity. In the case of Hitachi, Affiliate also means Hitachi, Limited., and any business entity controlled by Hitachi, Limited. However, Affiliate does not include Hitachi's distributors, resellers, independent service providers or authorized service providers.

Core: the processor or execution core contained in the same integrated circuit within a computer's central processing unit, whether physical or virtual, that is capable of reading and executing program instructions.

Current Version: the latest generally available Version of the Software released by Hitachi.

Derived Data: data created by and derived from the Products or Services, including but not limited to analytics models, statistical data and performance usage data, that does not include Personal Data or other identifying information.

Designated Use: Your internal business evaluation of the performance of the Product in a non-Production Environment.

Documentation: the user or technical manuals, training materials, specifications, or other documentation applicable to the Software and provided by Hitachi.

Entitlement: means the details of the Software license(s) that You have purchased, including license metric, duration, and/or quantity published on Hitachi's Price List or Quote or any other Hitachi-issued documentation confirming Your Order or in any SOW agreed to by both Parties.

Equipment: computer hardware, storage devices, networking equipment, sensors, cameras and/or any other tangible equipment, devices, accessories and items of any type.

GPL Software: certain software licensed under the GNU General Public License or other similar Open Source Software with a license that requires the licensor to make the source code publicly available.

Hitachi Partner: a Hitachi authorised reseller or distributor.

Hitachi Service Partner: a third party authorized by Hitachi to provide Maintenance and Support Services on Hitachi Products.

IP Rights: all current and future worldwide statutory or other proprietary rights, whether registered or unregistered, including but not limited to, moral rights, copyright, trademarks, rights in designs, patents, rights in computer software data base rights, circuit layout rights, rights in know-how, mask work, utility models, rights to sue for passing off, trade secrets, inventions, trade, business, domain or company names and any application for the foregoing, including registration rights.

Licensed Item: Software, Work Product or Maintenance Material (as the case may be).

Maintenance and Support Services: the services related to Equipment maintenance and Software support, as defined in the WMS Terms.

Maintenance Material: diagnostic and/or tracking tools, including without limitation the Hitachi Remote Ops Services software, firmware and related documentation, personal computers or notebooks, maintenance manuals and other documentation.

Open Source License Website: the site located at <https://www.hitachivantara.com/en-us/company/legal.html> and any updates or replacements from time to time.

Open Source Software: third party software which may be available without charge for use, modification or distribution and generally licensed under the GNU General Public License, Lesser General Public License, Apache or other open source software license.

Personal Data: for You, personal information about an identifiable person that You provide to Hitachi or otherwise use as part of the supply or use of Products or Services. For Hitachi, personal information about an identifiable person that Hitachi collects under its agreement with You.

Product(s): any Equipment and/or Software, including Third-Party Products listed in the Hitachi Price List or as otherwise agreed by the Parties from time to time.

Production Environment: any computer system running on one or more instances of Software that is being actively used to process data or provide information to the system's users.

Professional Services: software enablement, configuration, data migration and other migration services, implementation, data analytic and other services as agreed between the Parties from time to time.

Published Specifications: the user or technical manuals, training materials, specifications or other documentation for Products stated as valid by Hitachi at the time of acceptance of the Order, as updated by Hitachi from time to time.

Services: Maintenance and Support Services, Professional Services, training and any other services listed in the Hitachi Price List or similar offerings from time to time.

Service Packs: an accumulation of Patches and Fixes into a generally available package applicable to the Current Version of the Software, v1.r1.r2. released at the same time as a new maintenance level and targeted at Hitachi's existing Software install base.

Software: the object code format of (i) programming firmware embedded in the Equipment to enable it to perform its basic functions or to operate or manage the Equipment ("**Operating Software**"); (ii) stand-alone software programs supplied by Hitachi, including their license keys, where applicable, which do not fall within section (i) ("**Programs**"); and (iii) any Updates, Documentation and Published Specifications.

Third-Party EULAs: separate licenses for Third Party Software directly between You and the Third-Party Licensor, which terms may be shrink-wrapped or click-through, including all other related documentation, which may be provided to You by Hitachi.

Third-Party Licensor: the person set out in the Third-Party EULA who licenses the Third-Party Software to You.

Third-Party Related OSS: any Open Source Software licensed to, provided with or otherwise contained in, the Third-Party Software.

Third-Party Software: any software supplied to Hitachi by any party other than Hitachi, Ltd., including Third Party Licensors, for direct or indirect distribution to Hitachi customers. For clarification purposes, if any Third-Party Software contains Third Party Related OSS, You must refer back to that applicable Third Party EULA.

Token: a prepaid mechanism to meter user consumption.

Use: to use or deploy a Licensed Item in a Production Environment for processing data either in operation of Equipment, as stand-alone Programs or in receipt of Services.

Update: Subsequent releases and error corrections and/or minor functional enhancements for Software previously licensed by Hitachi.

Upgrade: releases that contain new additional features which significantly increase the basic functionality of the Product and for which Hitachi elects to charge separately to its customers generally.

Work Product: any works of authorship, program listings, tools, documentation, reports, specifications, implementations, drawings, work papers and similar works created by Hitachi or on behalf of Hitachi pursuant to the supply of Services.

WMS Terms: the Warranty, Maintenance and Support Terms forming part of the Online Terms located at <https://www.hitachivantara.com/en-us/company/legal/terms-licensing-maintenance.html> and all replacements and updates from time to time.

Version: a generic term for code corrections, error corrections, Service Packs, maintenance releases, minor releases, major releases and/or minor functional enhancements of a Program, generally made available by Hitachi to its customers.

You: the entity to whom Hitachi licenses the Software on these License Terms.
