Supporting Material

- TC12741 Installing and Configuring Hitachi Content Platform v9.x (2-day ILT)

This test is designed for Hitachi Vantara employees and partners who install Hitachi Content Platform systems. The test will validate that the successful candidate has knowledge and skills in installing, configuring and supporting Hitachi Content Platform systems at customer sites. This includes strong knowledge of the system hardware and related management software, and a thorough understanding of installation and configuration procedures as well as associated administrative activities. The test also covers the tools, techniques and best practices related to supporting and servicing Hitachi Content Platform. This test covers Hitachi Content Platform models HCP G10 with attached storage, HCP G10 with local storage, HCP VM, HCP S10 and HCP S30.

Audience: Hitachi Vantara Employee and Partner Installation Professionals

Hitachi Content Platform installation professionals should have strong knowledge and skills in installing and supporting the hardware systems deployed as part of Hitachi Content Platform solution implementations. These professionals have knowledge of file-and-content concepts and interoperability. They perform pre-installation checks, install, configure and test the systems so they can be handed over in an operational state to customers. They also provide post-installation services including support, maintenance, updates and upgrades and have knowledge of problem-determination and incident-resolution procedures, tools and techniques.

Test Objectives	
Section 1	Hitachi Content Platform overview
1.1	Describe Hitachi Content Platform functionality and concepts.
1.2	Describe Hitachi Content Platform protection concepts.
1.3	Describe Hitachi Content Platform configurations.
Section 2	Hitachi Content Platform G-Nodes hardware architecture
2.1	Identify the physical components of Hitachi Content Platform G10 and G11 nodes.
2.2	Describe the Hitachi Content Platform network components.
Section 3	Hitachi Content Platform S-Nodes Hardware Architecture
3.1	Identify the physical components of Hitachi Content Platform S10 and S30 nodes.
3.2	Identify the physical components of Hitachi Content Platform S11 and S31 nodes.

* Depending on the location and course delivery format, this closed-book, proctored qualification test may also be offered and administered by the instructor at the conclusion of the supporting course.

The Hitachi Vantara Learning Center provides easy access to our instructor-led, online, and downloadable training and exams, as well as full support for Hitachi Vantara certified professionals and other qualification programs.
