Hitachi Vantara

Certified Professional Program

Enhance and Validate Your Storage Skills

The Hitachi Vantara Certified Professional program is a role-based certification program. It provides knowledge and skills validation for sales and presales professionals, and for technical staff in the areas of systems installation, solutions implementation, and administration.

Benefits

With the Hitachi Vantara Certified Professional program, individuals:

- Validate their skills, knowledge and technical competencies.
- Establish their credibility and increase their value in the IT marketplace.
- Gain peer recognition and distinguish themselves from the competition.

The program includes tracks for sales, presales, administration, implementation and integration, installation and support, and basics and fundamentals.

Basics and Fundamentals	Associate	Hitachi Ops Center Operations HQT-6751						
		Storage Concepts HQT-0050						

Hitachi Vantara

Credential levels

The program features a two-tier assessment structure.

Qualification tests are assessment exams validating fundamental knowledge acquired through training at the Associate and Professional levels.

Certification exams are high-stakes exams at the Specialist and Expert levels that validate skills, knowledge and abilities as they relate to a job role. In order to pass a certification exam, candidates are expected to use knowledge acquired through multiple means, including real-life situations and experiences at customer sites, and various formal and informal learning methods.
