

Hitachi Vantara Insurance Solutions

Insuring Change

The World is Changing... You Should Be Too.

2x

Profit

An insurance carrier could more than double profits over 5 years by digitizing existing business process.¹

30%

Reduction

Automation can reduce the cost of a claims journey by nearly 1/3.¹

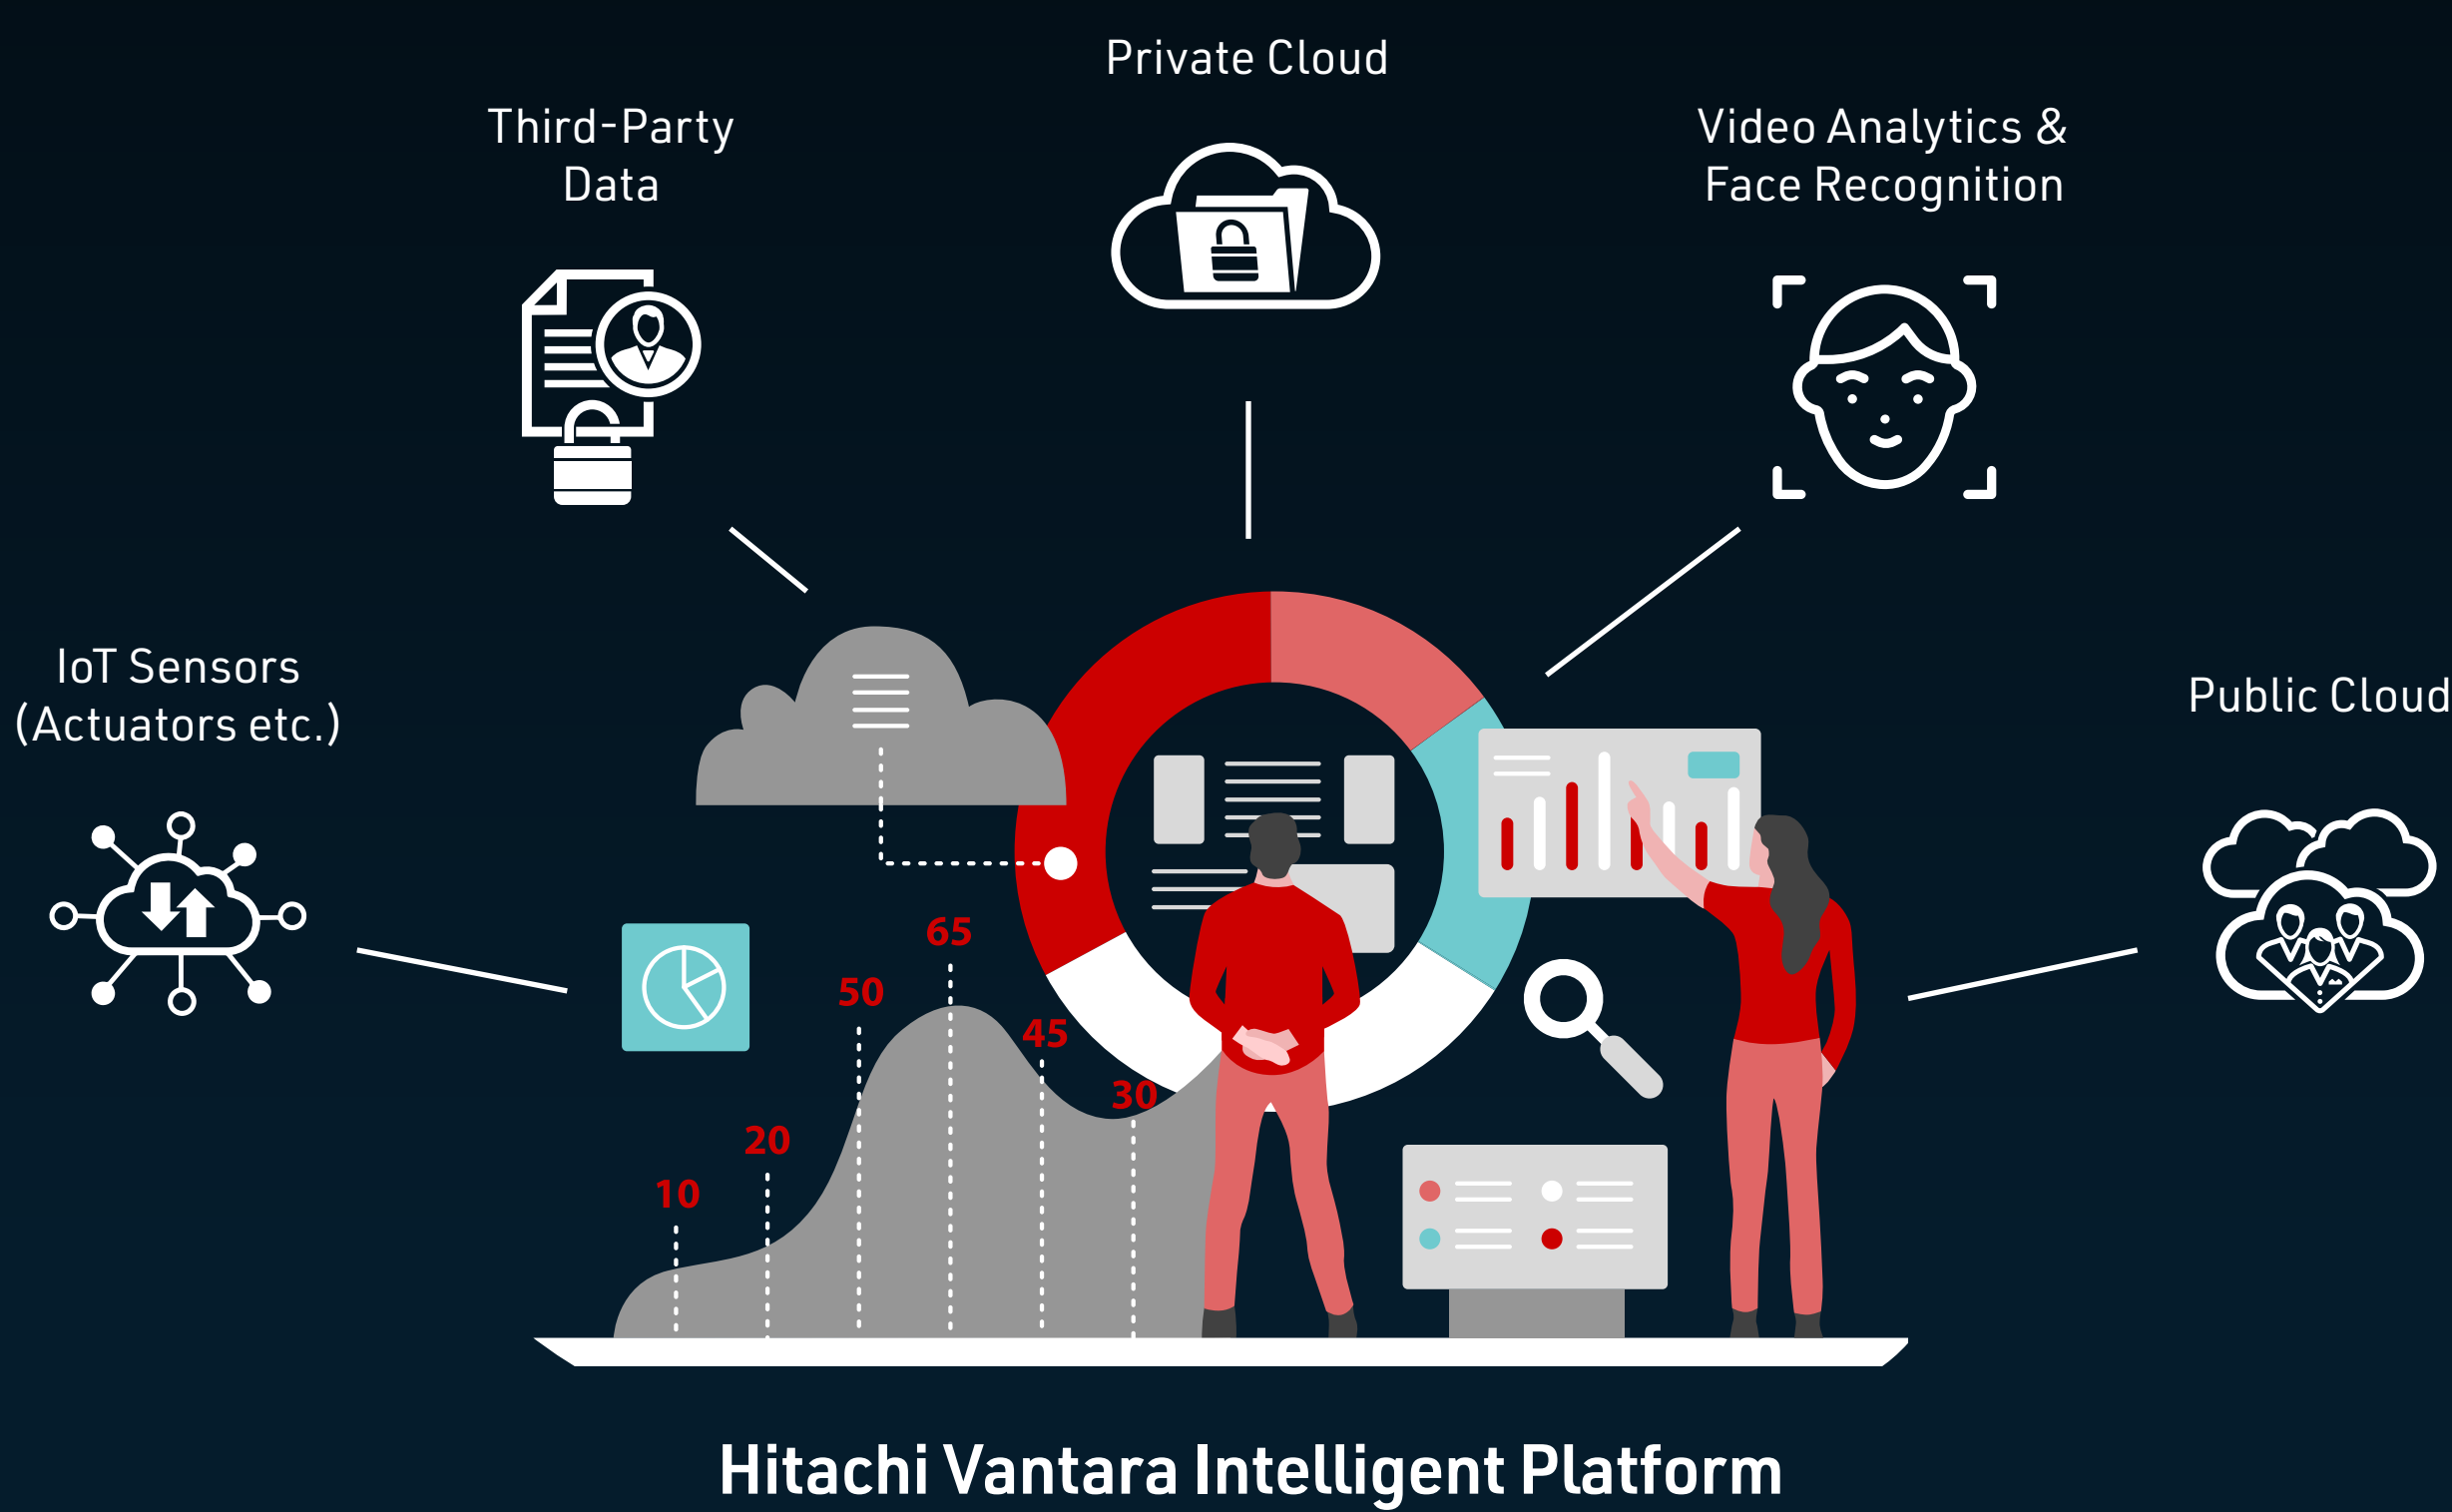

Hitachi Vantara provides an end-to-end intelligence platform providing you a complete holistic view of your risk.

Reshape Risk Through Smart Spaces

Harness IoT-enabled sensors, real time video and big data to accurately predict risk, respond faster to events and optimize insurance policies.

Ingest Structured & Unstructured Data From Anywhere

Enhanced Risk Assessment Based on Historical and Real Time Data

Aggregate data across lines of business for a complete, holistic overview of your risk. Smart spaces enable your customers to better protect people, assets and property whilst transforming risk.

Smart Insurance

People

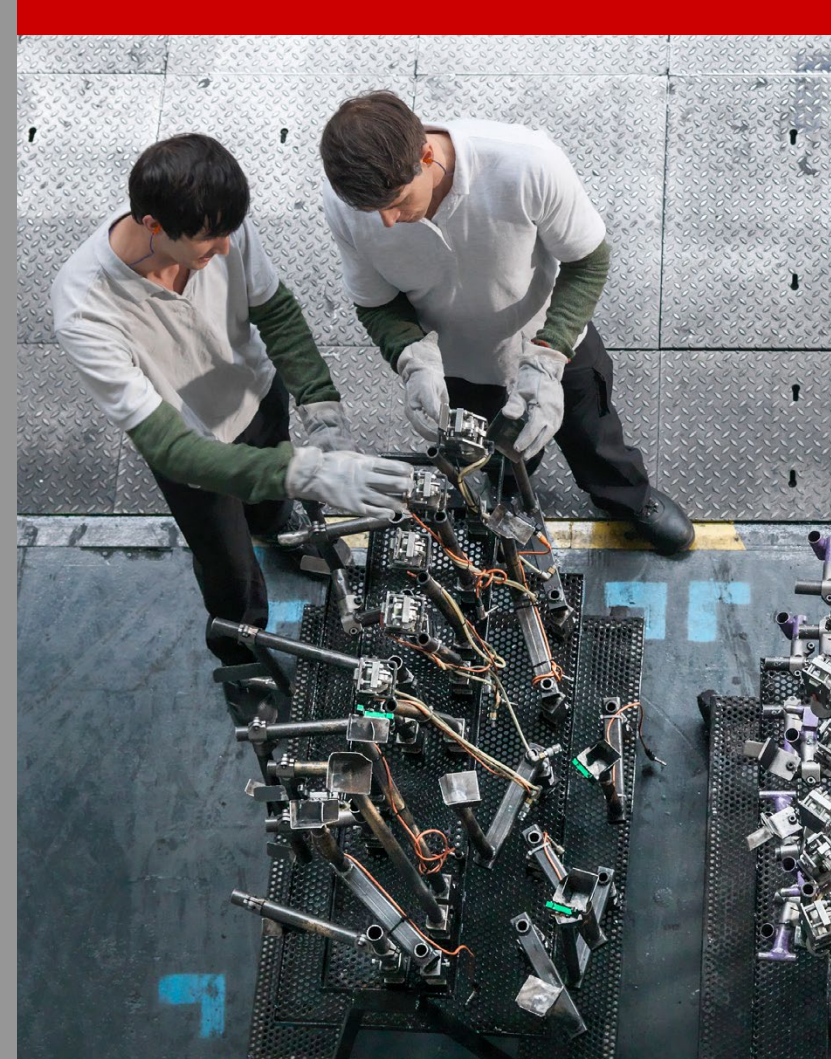

- Share real-time data and actionable alerts from CCTV and smart devices.
- Improve productivity and better protect people, buildings and machinery.
- Detect missing PPE, avoid incidents and respond faster to accidents.

Environment

- Develop a digital skills matrix for workers with integrated risk information.
- Improve the accuracy of risk assessments and lower your costs.
- Reduce claims through continuous risk monitoring.

Assets

- Schedule maintenance before equipment or machinery failure.
- Use on-site IoT devices to monitor assets and analyze risk in real time.
- Prevent incidents with increased visibility of ongoing issues.

The Benefits Are Clear

INCREASED UNDERSTANDING OF RISK

REDUCED COSTS

IMPROVED CUSTOMER ENGAGEMENT

The huge benefit that I see here is that we start to explore areas that have been uninsurable because of the lack of data. Now, with data becoming available, we can really start to analyse it and we can look to offer new products.

– Stefan Wunderlich, Internet of Things Proposition Lead at Swiss Re.
