

Hitachi Vantara and Amazon Web Services: Power Your Future-Ready Business

Alliance Proposition

Every business transformation is unique. You need to know that your infrastructure will support your business now and in the future. As the world's most comprehensive and broadly adopted cloud platform, Amazon Web Services (AWS) is a fundamental piece of that puzzle. Hitachi Vantara, a global AWS Premier Consulting Partner and Global Managed Services Provider, delivers your cloud transformation projects from end to end. Securely. And in a fraction of the usual time. Together, we empower your business processes and operations while reducing costs and ensuring security and compliance with guaranteed service levels.

Hitachi Vantara is a global AWS Premier Consulting Partner with deep expertise that includes over 300 AWS certifications, 11 Amazon Partner Network (APN) competencies and 11 analyst-recognized awards in the last four years.

Our unique Hitachi Cloud Accelerator Platform automates application migration and modernization to reduce AWS deployment time by 90% or more, allowing your business to start reaping the benefits of the AWS Cloud within days instead of weeks or months.

End-to-End Automation

Fast-track new business efficiency and agility through 24/7 end-to-end IT automation, replacing large teams of consultants and traditional manual effort. Hitachi Cloud Services has created an end-to-end cloud accelerator platform that has customizable out-of-the-box capabilities to deliver the specific requirements of each customer. Plus, it delivers expertise in all stages of cloud adoption, including foundation and secure landing zone, migration and deployment, as well as managed services, managed DevOps and managed compliance. It's like having your own team of cloud consulting experts working 24/7 to deliver custom AWS solutions.

Migration With Momentum

Accelerate your business and cloud adoption using pre-engineered and architected solutions for AWS services, like: Cloud Readiness Assessment, Cloud Security Assessment and Secure Landing Zone Foundational Setup. Our experts will help you streamline the provisioning and management of infrastructure, deploy application code, automate software release processes, and monitor your application performance.

Cost Optimization

Optimize costs by accelerating your cloud migration and unlock vast business efficiencies and new revenue streams. Accelerating migrations typically 90% faster means that your business can realize faster time to value.

Secure Cloud Environment

Hitachi Vantara goes beyond cost, performance and company impact to automate security and compliance, reducing risk and return on investment (ROI) timelines, all to Secure Cloud Computing Architecture (SCCA) standards.

Begin Your Transformation

Every cloud transformation project is unique. But with a proven methodology and close alliance of expertise between two industry leaders, your journey to the cloud can be faster, more secure and cost-efficient.

The Hitachi Cloud Services team of experts brings a combination of DevOps, industry, security, compliance, IT architecture and cloud computing expertise to every AWS cloud project.

Choose an Experienced Partner

Since utilizing Hitachi Vantara Cloud Services:

- **PierianDx** streamlined data processes and ensured HIPAA compliance for advanced medical research.
- **Sestra Systems** accelerated its IoT capabilities.
- **The Worldwide Incident Command Services Corporation (WICS)** achieved new resiliency and security.
